Santa Barbara, CA 93106

Description: First S.T.E.P. (Screening, Training, Education Project) aims to increase the early identification of children with autism spectrum disorders and the provision of support services for families with children 0-5 with this diagnosis. The first part involves community outreach and education to Health Care Professionals, Educators and Parents to facilitate earlier identification of children with ASD. The second part of First S.T.E.P. consists of providing free screenings of referred children for the early behavioral characteristics of autism and related disabilities. Finally, the third part of the project is providing family support for all families who participate in the screening through information, referrals and short-term intervention services. The program is available to children under the age of five residing in Santa Barbara County.
